Digital & CRM:	CRM Lifecycle Management (CDK, Eleads), Lead Generation & Prospecting, Digital Sales Funnel Optimization
Technical Tools:	HTML/CSS, JavaScript, SQL Basics, UI/UX Fundamentals, Microsoft Excel (Data Analysis & Modeling)
Core Business:	B2C Outreach (Cold Calling, Email Campaigns), Relationship Building, Customer Retention, KPI Tracking

PROFESSIONAL EXPERIENCE

Sales Consultant — Ocean Subaru of Fullerton	December 2023 – Present Fullerton, CA
- Engage with prospective buyers to diagnose specific operational or personal needs, systematically converting inbound digital inquiries into tailored vehicle solutions. - Manage an active, high-volume pipeline of digital leads using Eleads and CDK, deploying automated and manual multi-channel follow-up (phone, text, email) to increase outreach cadence and response velocity. - Analyze CRM interaction metrics to identify process bottlenecks, resulting in optimized communication workflows and more structured touchpoints for active opportunities. - Partner closely with Business Development Centers (BDC) and dealership management to refine lead hand-off procedures and maximize digital-to-showroom closing metrics.	
Sales Consultant — Puente Hills Subaru	November 2021 – December 2023 City of Industry, CA
- Owned and executed the full automotive sales lifecycle, including digital data capture, consultative presentation, test drive coordination, and meticulous post-sale vehicle delivery. - Cultivated long-term client relationships through systematic post-purchase check-ins, establishing a highly reliable referral network that generated consistent repeat business. - Processed high volumes of walk-in, inbound call, and digital market traffic using active listening techniques to match buyer demands with real-time inventory assets.	

- Collaborated with Finance & Insurance (F&I) and Service departments to structure accurate transaction terms, minimizing processing bottlenecks and securing optimal client satisfaction scores.

Sales Porter — Puente Hills Nissan

June 2020 – November 2021 | City of Industry, CA

- Directed dealership lot logistics and inventory organization, optimizing vehicle presentation and staging strategies to enhance overall operations.
- Supported sales, finance, and service workflows by preparing inventory for customer delivery, directly contributing to smooth operational onboarding.
- Gained foundational insight into dealership data tracking, customer-facing best practices, and agile team operations within a fast-paced retail environment.
